

FRANKLIN'S INTEGRAL HORSEPOWER CONTROL BOXES

Franklin Electric single-phase Control Boxes for 1 to 15 horsepower submersibles are reliable “workhorses” for your commercial installations. Start capacitors provide high starting torque while motor-matched run capacitors offer smooth, quiet, efficient motor operation. Manual reset overloads protect motor and pumping equipment from abnormal conditions. The 15 horsepower X-large Control Box furnishes twice the cycle rate and over 2.5 times the wiring connection space of the 15 horsepower large Box

FEATURES

- Suitable for outdoor mounting
- Capacitor Start/Capacitor Run design
- Heavy-duty box-type terminals accept up to #2 AWG wire
- External access to overload resets
- Multiple-size knockouts
- User-friendly connection diagrams
- Easy access to grounding lugs
- UL 778 recognized and CSA certified for 60 Hz models

OUTSTANDING IN THE FIELD!

STANDARD CONTROL BOXES

Standard Integral Control Boxes contain no magnetic contactor and are recommended for water systems that use heavy-duty pressure switches, level switches, or other pilot devices.

AVAILABLE RATINGS:

1/1½, 2, 3, 5, 7½, and 10 horsepower

Franklin Electric

2-15Hp

15Hp X-Large

DELUXE CONTROL BOXES

Deluxe Integral Control Boxes contain magnetic line contactors carefully matched to the motor rating. Recommended for water systems that use standard pressure switches, level switches, or other pilot devices. Deluxe Control Boxes eliminate the need to select, mount and connect external line contactors.

AVAILABLE RATINGS:

2, 3, 5, 7 ½, 10, and 15 horsepower
